Brazil: An Insider's Guide

Favourite beachside bar/restaurants...

There are few things we love more than a very long lunch. One place we can't get enough of is beach-lounge Rocka in Buzios. Set on a beautifully rugged horseshoe bay with a rhythmic pattern of waves that draw the local surfers with a menu that changes according to the daily catch. Over the summer season, dinners go on till late and the restaurant deck transforms into a dance floor for impromptu parties and moonlight dancing.
